

*Linking People And Plants*

Dear students and those interested in horticultural therapy training,

HTI continues to use care in conducting our face-to-face and require students be fully vaccinated for COVID-19 before attending any face-to-face classes. This policy may be modified to require vaccination **plus** masking if future conditions warrant. You will be notified before class if indoor masking is required. We know the value of on-site, face-to-face horticultural therapy instruction with quality interaction and engagement with the instructor and fellow students thus we will continue to encourage students to take as many classes face-to-face as possible. We offer one section of each class face-to-face and the other using a synchronous live online meeting format.

For questions email Christine Capra at: [ccapra@htinstitute.org](mailto:ccapra@htinstitute.org) or call 303-388-0500.
